

# CERA SOLIDA NATURALE SAN

## UNIVERSAL SOLID NATURAL WAX

### Application Fields

**CERA SOLIDA SAN MARCO** protects and revives the Pietra di Venezia Floors and all the floors made of cotto, marble and stone.

Excellent as wax paste for traditional treatments.

Ideal for maintenance of non-varnished wooden surfaces: antiques and classic style furniture, doors, beams, veneers.

### Advantages

- It is the ideal choice for bio-architecture.
- It contains only natural waxes.
- It is easy to apply.

**CERA SOLIDA SAN MARCO** is a ready-to-use product.

**On Pietra di Venezia floors:** after the treatment with Biofinitura Protettiva San Marco, apply two coats of product with an 8 hours interval between the coats.

**On cotto:** apply the product, directly or after the first coat of Cera Liquida San Marco-L, in two coats with an 8 hours interval between the coats.

**On wood:** after the preparation coat, apply a first CERA SOLIDA SAN MARCO coat using a cloth or a sponge and, after few hours, apply a second coat. When is dry, polish with a cloth or by polishing machine..

**On furniture, doors and beams:** clean the surface from any dust and apply a thin coat of wax using a clean cloth. When is dry, polish the surface with a woollen cloth..
